every nation has its founding myth and for modern china it is the long march in 1934 the fledgling communist party and its 200 000 strong armies were forced out of their bases by chiang kaishek and his national troops walking more than 10 000 miles over mountains grassland and swamps they suffered appalling casualties and ended up in the remote barren north just one fifth survived they went on to launch the new china in the heat of revolution a legend was born justified by a remarkable feat the long march was also a triumph of propaganda for mao and for the revolution seventy years later sun shuyun set out to retrace the marchers steps the rugged landscape has changed little her greatest difficult was in wrestling with the scenes lodged in her mind since childhood part of the upbringing of every chinese on each stage of her journey she found hidden stories the ruthless purges the terrible toll of hunger and disease the fate of women on the march the huge number of desertions the futile deaths the real story of the march the most vivid pictures come from the veterans whom

sun shuyun has found she follows their trail through all those harsh miles discovers their faith and disillusion their pain and their hopes and also recounts how many suffered even after the march's end in 1936 the long march was an epic journey of endurance even more severe than history books say and courage against impossible odds it is a brave exciting and tragic story sun shuyun tells it for the first time as it really happened

in the shadow of the korean war a series of misfired mortar shells kill eight men in a marine camp during a training exercise prompting the commanding officer to order a grueling punishment a thirty six mile march through the suffocating heat of the carolina summer intended to beat discipline into the aging reservists the march instead rankles lieutenant culver and captain mannix whose growing resentment of the brutal trek leads to an ultimate powerful act of rebellion the long march is a withering critique of a military system that leaves no room for dignity or personal identity told in part through flashbacks and dream sequences the story is immersed in vivid language and philosophical reflection a poignant defense of the individual in the face of attempted dehumanization

this study tells the epic story of how a routed group of chinese communists marched tens of thousands of miles with mao on a journey that would lead to their eventual triumph and rule of the whole of china every nation has its founding myth and for modern china it is the long march in the autumn of 1934 the chinese nationalists under chiang kai shek routed the chinese communists and some 80 000 men women and children left their homes to walk with mao zedong into the unknown mao's force had to endure starvation harsh climates and challenging terrain whilst under constant aerial bombardment and threatened by daily skirmishes the long march survivors had to cross 24 rivers and 18 mountain ranges through freezing snow and disease ridden wilderness to reach their safe haven of yan an in military terms the long march was the longest continuous march in the history of warfare and it came at a terrible cost after one year 6 000 miles and countless battles fewer than 4 000 of the original marchers were left illustrated with stunning full colour artwork this enthralling book tells the full story this epic display of resilience and shows how from the desert plateau of yan an these survivors would grow the army that conquered china 14 years on changing history forever

international interest in china is increasing not surprisingly china related news is hitting the headlines of leading international media this is well grounded given the fact that china is the largest developing country in the world with almost a quarter of the world's population however many reports on china are self contradictory which again reveals the complexities of a nation that has experienced dramatic change for over a century for the outsider it is virtually impossible to follow china's overriding trends of change without understanding its past and present this book provides a chronological record of the major changes that have taken place in the chinese economy over the past five decades

as china joins the capitalist world economy the problems of social disintegration that gave rise to the earlier revolutionary social movements are becoming pressing instead of viewing the chinese revolution as an academic study these essays suggest that the motifs of the revolution are still alive and relevant the slogan farewell to revolution that obscures the revolutionary language is premature in spite of dislocations and ruptures in the revolutionary language to rethink this discourse is to revisit a history in terms of sedimented layers of linguistic meanings and political aspirations earlier meanings of revolutionary words may persist or coexist with non revolutionary rivals recovery of the vital uses of key revolutionary words proffers critical alternatives in which contemporary capitalist myths can be contested

young s choosing revolution reveals the complex interplay between women s experiences and the official almost mythic version of the long march in addition to their riveting stories of the march itself young s subjects reveal much about what it meant in china to grow up female and in many cases poor during the first decades of the twentieth century in speaking about the work they did and how they adapted to the demands of being a soldier these women both educated individuals who were well known leaders and illiterate peasants reveal the long march as only one of many segments of the revolutionary paths they chose book jacket

mao zedong s political career spanned more than half a century the ideas he championed transformed one of the largest nations on earth and inspired revolutionary movements across the world even today mao lives on in china where he is regarded by many as a near mythical figure and in the west where a burgeoning literature continues to debate his memory in this book leading scholars from different generations and around the world offer a critical evaluation of the life and legacy of china s most famous some would say infamous son the book brings the scholarship on mao up to date and its alternative perspectives equip readers to assess for themselves the nature of this mercurial figure and his significance in modern chinese history

this work written by an expert in the politics of mainland china and taiwan looks at the role the constitution of the republic of china has played in the development of taiwan since 1949 and its potential influence on the people s republic of china the chinese communists conducted the first long march for the sake of the majority of chinese people with the victory of mao zedong in the second long march Chiang Kai Shek and his successors tried to convert the chinese mainland from a communist totalitarian system into a democratic prosperous one by relying on the spirit of the republic of china roc constitution and by setting itself as a good example in gradually guaranteeing freedom and democracy needless to say this march is long and difficult the second long march challenges other models and theories on the study of the relationship between the roc taiwan area and mainland china or the people s republic of china prc since china became politically as opposed to legally divided in december 1949 arguably it is the roc constitution that has helped roc citizens to live in a non

communist or anti communist political system actively promoting democracy and freedom on the chinese mainland neidi can further guarantee the taiwan area s survival the book will provide valuable scholarship of interest to anyone researching the political history of china and its prospects for democratization
